Best Practices For Timekeeping

Prepared by DAAP Business Office, June 2013

Shared Responsibility

A **Time Stamping Employee** is an employee who is paid by the hour and is required to report worked time using the Employee Self Service Portal. A **University Timekeeper** is the first line of defense in ensuring the University's time records are accurate. Using UCFlex/SAP, the timekeeper is responsible for reviewing an hourly employee's hours and ensuring that (a) all hours worked are reported and (b) all hours reported are worked. A **University Time Approver** is responsible for ensuring the timekeeper is following established processes and procedures to keep time and for approving the time records as verified and modified by the timekeeper. The **Business Office** is responsible for developing best practices and providing training to carry out the functions of timekeeper and approver.

Best Practices for Timekeeping

- 1. Develop a policy for clocking in and out (e.g. clock/terminal location, scenarios when the location can be different, the reporting required when someone deviates from the published schedule) and communicate this policy to your workers.
- 2. Determine availability. This means asking your employees when they are available to work, and even asking for a copy of a student's class schedule so you don't schedule when the student employee is supposed to be in class.
- 3. Publish a schedule of work at least a week in advance. Take into account
 - a. Availability (see item 1)
 - b. Open hours, determined by area need.
- 4. Check clocked hours to the schedule and availability using CATS_DA in UCFlex/SAP.
- 5. Perform a reasonableness check on the summary information found in CATS_DA and/or ZHPT_APPROVE_HOURLY.
- 6. If you cannot be physically present when your employees are clocking and working, perform unannounced spot checks to ensure that employees who claim they are working after hours or in a different location actually are working.
- 7. If you suspect that someone has been falsifying time records, notify the Director of Business Affairs immediately to discuss next steps.

| Area | Organization Number | Primary Timekeeper | Primary Approver |
|-------------------------|---------------------|--------------------|------------------|
| College Office | 6000062 | Jeremy Jaskiewicz | Judy Smith |
| Business Affairs | 60001544 | Jeremy Jaskiewicz | Judy Smith |
| Student Affairs | 60001543 | Vanessa Phelan | Amberly Maryo |

Time Reporting
