

DAAP
CAMPS
2018

make something
of your summer

WHEN?

High & Middle School Day Camps: June 11–15, 2018
Residential Pre-College Camps: June 24–30, 2018
C.A.M.P.: July 8–14, 2018

BRING YOUR PASSION, GROW YOUR TALENT

DAAPcamps are week long immersions for high school and middle school students to explore their creative passion areas and expand their skills in specific artistic disciplines. Set on the University of Cincinnati's architecturally-renown campus and supervised by the faculty and staff at the globally recognized College of Design, Architecture, Art, and Planning, each day at camp includes time spent on studio projects, field trips and social activities for the perfect mix of practice and inspiration.

For DAAPcamps 2018, students can choose from the Residential High School Camp that runs the week of June 24–30, Middle and High School Day Camps that run the week of June 11–15, and the Middle School Architecture Mentoring Program that runs July 8–14.

RIISING 8–9TH GRADES

WHERE?

The University of Cincinnati's
Aronoff Center, Clifton Ave.
and Martin Luther King Blvd.
daap.uc.edu/daapcamps

Please Note: Participation in DAAPcamps does not guarantee a student's future acceptance into DAAP or their designated major. It does, however, allow them to live the life of a college student in DAAP for one week, and, by doing so, gives participants a view of a future in design- or art-based programs and careers. It also provides them with the insight and tools to help them craft the most successful path possible if they choose to utilize the information.

HIGH SCHOOL Day camp JUNE 11–15, 9am–5pm DAILY RISING GRADES 9–12

THE ART OF FASHION

Join us for a week-long adventure learning *everything* you need to know about creating your own piece of wearable art. Experience what it is like to dream up an idea and translate it into a stunning garment that is all your own. Learn about the “inside” of the business and use a sewing machine to fabricate new ideas and techniques. Express your personal style with the Art of Fashion!

CITY TRANSFORMERS

Do you want to make a difference in the world? Join us and fellow change-makers for a week-long exploration of cities and how they work! Explore Cincinnati. Visit public parks. Research the built environment. Meet community leaders and activists. Make your own city maps and models! At this day camp, you'll learn what it takes to positively change your community and create livable, sustainable cities. Come change the world with us!

DIGITAL FABRICATION

The past five years has seen a remarkable influx of innovative ideas as Digital Fabrication tools become readily available to designers of all kinds. Rapid prototyping machines—3D Printers, Laser Cutters, and CNC Machines—along with 3D-modeling software allow Architects, Designers, and Artists to explore and create objects never before seen. Immerse yourself in this technology for a week as you design, model and fabricate your very own one-of-a-kind masterpiece.

DRAWING INTENSIVE

Whether your passion is graphic design, architecture, interior design, fashion, animation, or any other design discipline, excellent drawing skills will be your constant companion. This camp will provide you with the opportunity to explore a wide range of drawing experiences, including cast drawing, figure drawing, sculpture from the figure and master copies. No prior experience is needed. All work produced during your week in the Drawing Intensive will be geared toward supplementing your portfolio for future school or scholarship applications.

FIBER ART ACCESSORY DESIGN AND CREATION

Build your own brand by creating one of a kind wearable art accessories. Learn to design essential key accessory items, including jewelry, handbags and wearables. This camp explores fiber, jewelry and leather design as it relates to contemporary art, fashion, culture, and society. Campers will use their passion for art to investigate the basics of creating a fashion accessory brand and the design and development techniques used by fashion designers to create trend forward accessories including studio work and outside studio visits.

SUMMER ARTINGS

Do you want to explore the arts in Cincinnati? Led by an Art Historian, Summer Artings will immerse students in the rich artistic culture of the city. We will have private tours of the major museums, behind the scenes visits to the DAAP galleries, and offer a detailed look at some of the creative murals popping up around the city. Additionally, students will gain insight on some of the major works from the history of art, and have the opportunity to learn more about their favorite artists.

RESIDENTIAL PRE-COLLEGE CAMPS JUNE 24–30 RISING GRADES 10–12

ARCHITECTURE & INTERIOR DESIGN

Do you love buildings, inside and out? Are you interested in designing structures and interior spaces? Then the Architecture & Interior Design DAAPcamp is the perfect place for you to be this summer! This camp, mixes hands-on design projects, field trips to local firms and cool buildings, plus individual attention from UC faculty, all while giving you a taste of college life. So join us, and create a unique experience exploring the worlds of Architecture and Interior Design.

FASHION DESIGN

If you find yourself “noticing” fashion—sketching ideas, being inspired by color and fabric, always thinking “I have an exciting idea for a look that has never been created!”—then an education and career in Fashion Design is for you! DAAPcamp is the place to explore the Fashion Design process through an immersive week long experience that investigates fashion theory, conceptual development and technical realization. Learn the tools required of contemporary fashion designers as you develop and craft creations that showcase your unique design voice as the Future of Fashion.

GRAPHIC COMMUNICATION DESIGN

Learn the fundamentals of type, photography, color, imagery and motion so that you can connect your ideas and messages to people. Tour an award-winning design firm and learn how to use the tools of design to make your own and collaborative 2D and digital media projects. Students will utilize DAAP's computer labs, photography darkroom and foundation studios to create unique graphic projects. Introduction to Adobe suites software Illustrator and Photoshop.

STUDIO ART CERAMICS EMPHASIS

Do you want to learn to translate your ideas into ceramics? Students will be introduced to wheel throwing and hand-building techniques, as well as a range of firing and surface decoration processes including screen-printing on clay and raku firing. Explore Rookwood Pottery and be exposed to contemporary artists using ceramics from around the world in the studio. In only a week, campers will create a body of three-dimensional work for a college preparatory portfolio and learn to communicate personal ideas through contemporary art practices in ceramics.

STUDIO ART DRAWING AND PAINTING EMPHASIS

This is an intensive drawing, painting and craft studio where campers will develop artistic skill, and express their own individual creativity as they work from the great masters. Campers will go to diverse sites to draw and paint along with doing artist studio visits. Using “the grid” technique as a primary tool, artists will gain confidence on their own abilities and experiment with new ideas. Along with expanding their skill in tone, perspective, color and proportion they will learn about major art movements throughout history.

INDUSTRIAL DESIGN

Every product around you—from the keyboard at your fingertips to the car in your driveway—was designed by industrial designers to meet a given need by a given group of people at a given time. But there's a lot more to industrial design than simply coming up with cool things. Join us for the Industrial Design DAAPcamp and learn all about what it takes to make it in this highly challenging and rewarding career.

SHOE DESIGN

The Shoe Design Camp is a one-week intensive seminar taught by DAAP industrial design graduates who are now professionals in the footwear design industry, along with an experienced product developer from England. Students will work side-by-side with these footwear design professionals, learning the fundamentals of the craft and the strategy behind product development; true skills that will prepare them to study any discipline of design in the future.

MIDDLE SCHOOL Day camp JUNE 11–15, 9:30am–4:30pm DAILY RISING GRADES 6–8

Come join Middle School DAAPcamp this summer for new explorations into visual art through the process of ideation, hands on creation, and reflection. Students will be guided through open-ended projects to create with materials ranging from two-dimensional, sculptural, and digital, including rapid prototyping techniques to turn dreams into reality. The day-long session provides three hours of instruction in the morning, an hour for lunch break (supervised group), and three hours of instruction in the afternoon. The sky's the limit for students to focus on their own imaginative ideas!

CINCINNATI ARCHITECTURE MENTORING PROGRAM (C.A.M.P.) JULY 8–14 RISING GRADES 6–9

Have you always enjoyed drawing or creating things? Do you design buildings in Minecraft, Sims or with Legos? This camp is a great way to experience what life would be like as an architect or designer. You will learn from and work with faculty from the School of Architecture and Interior Design, tour architects' offices and visit some great buildings on UC's campus and throughout Cincinnati. Explore the creative process of designing buildings through hands-on projects incorporating drawing techniques and model-building.
