## Fine Arts Foundation Supply Kit

The Foundation Supply Kit is intended to serve as a basic set of starter supplies; it will be necessary for you to purchase additional materials throughout the semester or year, on a per project basis. The studios have several modules within each course. You will need your supplies in hand at the beginning of each module. For academic year 2022-2023, the DAAP Art Store and Plaza Art (both local vendors) have requested the Foundation Supply Kit below so that they may offer a kit available for purchase. A list of computer recommendations can be found at the following link: [daap.uc.edu/current-students/incoming-students/computers](http://daap.uc.edu/current-students/incoming-students/computers)

**Note: The Foundation Supply Kit and the supply list are related but are not the same thing. You will be required to purchase additional items outside of the Foundation Supply Kit listed in this document. Do not make any substitutions to the supply list. What is listed is required. It is strongly recommended that you do not attempt to purchase these items individually. You will be required to make additional purchases within DAAP at the Photo Lab, Ceramics Lab, Printmaking Lab, Student Technology Lab, and the Build Lab for supplies that are not on this list. This is subject to change.**
